Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Whatsapp	All Team members	Discussion about the project on how to do
2	Progress Update	Weekly	Google Meet	All Team members	Review completed tasks, track milestones, and plan upcoming work.
3	Issue / Bug Discussion	As Needed	GitHub	Development Team	Discuss coding issues, debugging, machine learning model errors, and integration problems.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team lead	Demonstrate project progress, receive feedback, and discuss improvements.
5	Final Demo Rehearsal	Once	Google Meet	Team lead and One team member	Practice the final presentation, test the application, and verify deployment.
6	Deployment & Documentation Review	Once	GitHub / Render	Team Members	Verify deployment, documentation, and final project submission readiness.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Finding teammates in the initial stage	This resolved by messaging in whatsapp smart bridge group
2	Difficulty in understanding the credit card approval dataset and feature relationships	Conducted team discussions, referred to project documentation, Kaggle resources, and mentor guidance to understand the dataset.
3	Integrating the trained machine learning model with the Flask web application	Collaboratively debugged the integration, tested the API endpoints, and resolved issues through code reviews and online documentation.
