

Customer Journey Map

Date	29 June 2026
Team ID	XXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Customer Journey Map

The Customer Journey Map enables developers, business analysts, and banking professionals to identify bottlenecks, improve user satisfaction, and continuously optimize the overall approval workflow.

Phase of Journey	Stage – 1 Application Submission	Stage -2 Data Processing & Prediction	Stage-3 Decision & Customer Feedback
Actions What does the customer do?	• Opens the application. • Enters personal details. • Submits the application.	• Waits while the system processes the application. • Machine learning model predicts the result.	• Views the approval or rejection result. • Proceeds based on the result.
Touchpoints What part of the service do they interact with?	• Web Application • Application Form	• Prediction System • Machine Learning Model	• Result Page • Bank Officer
Customer Thought What is the customer thinking?	• "Hope my application is accepted." • "The process should be simple."	• "The system is checking my details."	• "I got my result." • "If rejected, I can apply again later."

Process Ownership <i>Who is responsible?</i>	Applicant	Credit Card Approval System	Bank Officer
Opportunities <i>How can we improve this stage?</i>	• Make the application form easier to fill. • Reduce input errors.	• Improve prediction speed and accuracy.	• Show clear reasons for approval or rejection.
